- ❸ Heavily reinforced construction with 1050 denier nylon
- ❹ Fully adjustable shoulder and waist panels
- ❺ Quick cylinder attachment interface

DIVATOR BCW

WING TYPE BUOYANCY COMPENSATOR

The Interspiro **DIVATOR BCW** is a Buoyancy Compensator combining high quality heavy duty construction, weight integration, and rear wing style buoyancy.

The **DIVATOR BCW**'s modular construction allows the transition between rugged dry suit and thin wet suit diving. Constructed of heavily reinforced 1050 denier ballistic nylon, the **DIVATOR BCW** is compatible with a variety of options and accessories, including bladders, pockets and custom gear attachment components.

Diving equipment from Interspiro is an investment with a long service life, when properly maintained. To simplify service and to obtain maximum product performance we recommend using our service kits, containing original spare parts necessary for preventive maintenance.

Interspiro offers training courses for users who perform day-to-day service work, as well as training for service personnel performing full maintenance programmes.

For more information about the DIVATOR product range and our other diving equipment please visit us on the Internet.
